

<i>B. Farhadinia, F. Javier Cabrerizo and E. Herrera Viedma</i> Horizontal representation of a hesitant fuzzy set and its application to multiple attribute decision making	1
<i>Y. L. Yang and X. Y. Bai</i> A research on classification performance of fuzzy classifiers based on fuzzy set theory	15
<i>Y. F. Li and X. X. He</i> A note on decision making in medical investigations using new divergence measures for intuitionistic fuzzy sets	29
<i>X. Guo and D. Shang</i> Solving LR fuzzy linear matrix equation [†]	33
<i>A. Kumar and A. Sharma</i> Systematic literature review of fuzzy logic based text summarization	45
<i>P. Mandal and A. S. Ranadive</i> Multi-granulation fuzzy probabilistic rough sets and their corresponding three-way decisions over two universes	61
<i>F. Song and Z. Z Wu</i> The KKT optimality conditions for constrained programming problem with generalized convex fuzzy mappings	77
<i>H. Y. Yue, W. Yang, S. B. Li and S.Y. Jiang</i> Fuzzy adaptive tracking control for a class of nonlinearly parameterized systems with unknown control directions	97
<i>T. C. Lin, H. Y. Lin, C. J. Lin and C. C. Chen</i> Mobile robot wall-following control using a behavior-based fuzzy controller in unknown environments	113
<i>X. L. Gao and X. L. Xin</i> Equality propositional logic and its extensions	125
<i>L. Zhang, J. Fang and W. Wang</i> Monoidal closedness of L -generalized convergence spaces	139
<i>S. Moghari and M. M. Zahedi</i> Multidimensional fuzzy finite tree automata	155
<i>H. Ozturk , S. Aytar and F. A. Senel</i> An EPQ model for an imperfect production process with fuzzy cycle time and quality screening	169
<i>A. Younus, M. Asif, K. Farhad and O. Nisar</i> Some new variants of interval-valued Gronwall type inequalities on time scales	187
<i>Persian Translation of Abstracts</i>	201
